The *Philosophy & Psychoanalysis* book series is dedicated to current developments and cutting edge research in the philosophical sciences, phenomenology, hermeneutics, existentialism, logic, semiotics, cultural studies, social criticism, and the humanities that engage and enrich psychoanalytic thought through philosophical rigor. With the philosophical turn in psychoanalysis comes a new era of theoretical research that revisits past paradigms while invigorating new approaches to theoretical, historical, contemporary, and applied psychoanalysis. No subject or discipline is immune from psychoanalytic reflection within a philosophical context including psychology, sociology, anthropology, politics, the arts, religion, science, culture, physics, and the nature of morality. Philosophical approaches to psychoanalysis may stimulate new areas of knowledge that have conceptual and applied value beyond the consulting room reflective of greater society at large. In the spirit of pluralism, *Philosophy & Psychoanalysis* is open to any theoretical school in philosophy and psychoanalysis that offers novel, scholarly, and important insights in the way we come to understand our world.

## Psychology of Belief and the Rise of Secular Spirituality

Jon Mills

Series: *Philosophy and Psychoanalysis*

**“This is a probing, thoughtful, and sensitive discussion of belief in God. Jon Mills integrates philosophy, psychology, and psychoanalysis to provide a comprehensive and penetrating account of the nature of belief. His two main theses strike me as clearly correct: (a) there is no God and (b) the idea of God is a deep seated and natural part of the human psyche.”**

– Colin McGinn, philosopher, author of *Prehension and numerous books*

**“Atheism has been waiting for its philosophical psychologist. Dr. Jon Mills fulfils that role expertly, with his clinical discernment and humanist temperament. God can be a persuasive idea due to human frailties and fantasies, but Dr. Mills explains how anyone can control and dismiss that idea’s power over their minds. His readers are in the finest caring hands as they learn how authentic and fulfilling a secular life philosophy can be.”**

– Dr. John R. Shook, author of *The God Debates*

**“An amazingly wide-ranging and provocative work.”**

– Professor Robert A. Segal, Sixth Century Chair in Religious Studies, University of Aberdeen

**“We need a new worldview that gives individuals meaning and unites us as a species. Jon Mills’ *Inventing God* does just this, beautifully and powerfully outlining a humanist perspective that can be embraced by all.”**

– Michael Shermer, Publisher of *Skeptic* magazine; monthly columnist for *Scientific American*; author of *The Moral Arc*

**“This book opens up a great chance for civilizing the (sometimes aggressive) discussions between believers and non-believers.”**

– Professor Robert Pfaller, author of *On the Pleasure Principle in Culture*

In this controversial book, philosopher and psychoanalyst Jon Mills argues that God does not exist; and, more provocatively, that God cannot exist as anything but an idea. Put concisely, God is a psychological creation signifying ultimate ideality. Mills argues that the idea or conception of God is the manifestation of humanity’s denial and response to natural deprivation; a self-relation to an internalized idealized object, the idealization of imagined value.
